

## COVID 19 Management plans

---

TCPA will continue to use CONTROL MEASURES as recommended by the Government to manage the control of Covid and any potential outbreaks. Please refer to our full Covid-19 Policy and risk assessment for full details.

---

### **Control Measures**

We will ~

- Ensure good hygiene for everyone by using hand sanitiser on entry and exit and encouraging hand washing.
- Maintain appropriate cleaning regimes, using standard products such as detergents, paying particular attention to touch points and equipment and ensuring a full clean after the end of our sessions for the day.
- Keep occupied spaces well ventilated by keeping doors and windows open.
- Follow public health advice on testing, self-isolation and managing confirmed cases of COVID-19
  1. We will do this by using NHS test and trace and encouraging use of our QR code at both venues
  2. From August 16<sup>th</sup> - no isolation will be required if contacted by test and trace however you will be advised to take a PCR test
  3. An out-break is considered to be several positive cases confirmed in 14 days. We will contact the dedicated service (0800 046 8687) who will escalate to the local authority. (It is at their discretion as to if bubbles and face covering will be introduced again temporarily)
- Monitor if controls are effective and working and react appropriately.
- Immediately Isolate any student that develops symptoms whilst in our setting and call parents for immediate collection. All close contacts and NHS Test and Trace will be contacted and the setting will receive a full clean before any other students are allowed into their class.
